

1#

FIND A PLACE TO SIT.

2#

THINK ABOUT THE AMOUNT
OF CHAIRS WE ALREADY HAVE.

3#

THINK ABOUT THE TIME YOU
SPEND DESIGNING NEW CHAIRS.

4#

REALIZE THAT WE ALREADY HAVE
ENOUGH CHAIRS FOR EVERYONE.

5#

WHY NOT REPAIR BROKEN
CHAIRS TO SUIT YOUR NEEDS?

THE WORLD HAS ENOUGH CHAIRS.

The designers of the world are challenged to NOT design chairs for the rest of the year. This is the ultimate *sustainable design* challenge – If not that then think about the amount of time You'll save when you are not designing new chairs.

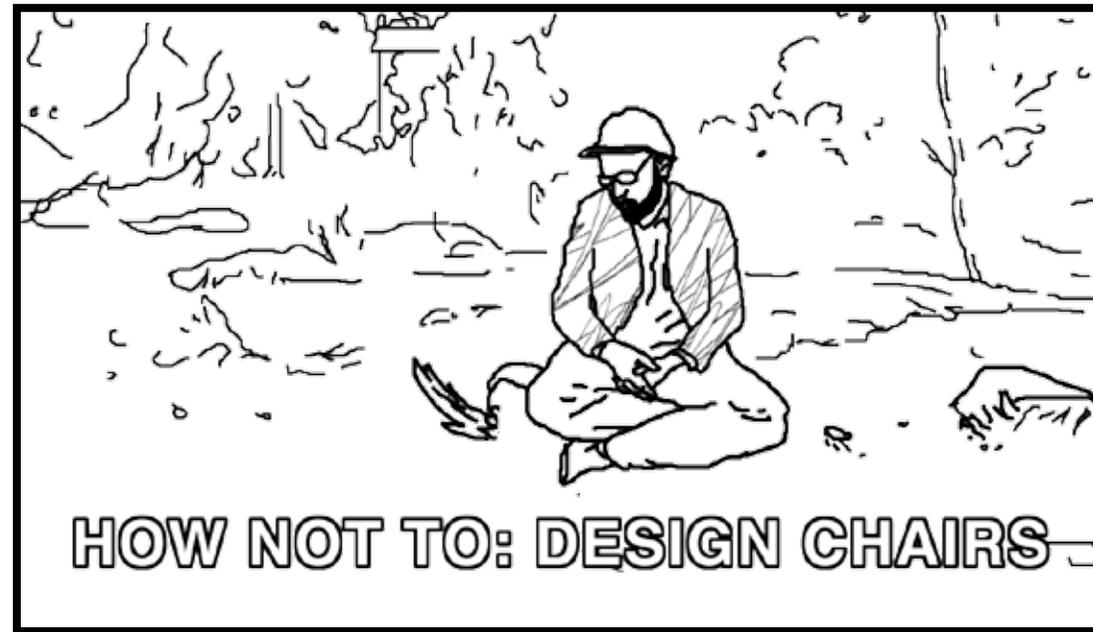

Pledge that You will NOT design chairs the rest of the year and go do something fun with Your Friends and Family.

NCD-Campaing is about learning new skills instead of designing new things. If you don't know what to do when NOT designing chairs.. It is recommend that You learn to repair the ones we already own.

I want You to have this tutorial because You mean a lot to me.
